SENATE BILL

No. 1350

Introduced by Senators Lara and Wolk

February 21, 2014

An act to add Section 118502 to the Health and Safety Code, relating to public accommodations.

LEGISLATIVE COUNSEL'S DIGEST

SB 1350, as amended, Lara. Baby diaper changing accommodations.

Existing law requires publicly and privately owned facilities where the public congregates to be equipped with sufficient restrooms to meet the needs of the public at peak hours.

Existing law establishes the California Building Standards Commission to approve and adopt building standards adopted or proposed by state agencies. Existing law establishes the Building Standards Administration Special Revolving Fund in the State Treasury and makes moneys deposited in the fund available, upon appropriation, to the commission to carry out the duties of the commission, as specified.

This bill would require the California Building Standards Commission to develop and adopt standards governing the installation of baby diaper changing accommodations for restroom facilities in a place of public accommodation ~~after January 1, 2017~~, as specified. The bill would require the commission to require, when developing the building standards, that any place of public accommodation that installs a baby diaper changing accommodation ensures that the accommodation is equally available or provided regardless of the gender for which the restroom facilities are designed. This requirement would only apply under specified circumstances, including when there is construction of

a new restroom or substantial renovation of a restroom, as specified. The bill would authorize the commission, in adopting this standard, to consult with the State Architect, the State Department of Housing and Community Development, the Office of Statewide Health Planning and Development, and other interested parties. The bill would also authorize the commission to expend funds from the Building Standards Administration Special Revolving Fund, upon appropriation as specified, for the development and adoption of these standards.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
